REPORT OF FOREST FIRE WARDENS

Howdy, Folks:

This is your friend Smokey, the fire prevention bear talking for Joseph Wilson your local forest fire warden. You know how he is always asking you people to take it easy with fire in the woods? Well, he wants you to know that forest fires decreased last year. He knows it did rain some but it was the help of all you people who are giving their time and money and carefulness to prevent this shameful waste of our woodlands. But please remember this, folks, forest fires still do a lot of damage each year. And we've got to work and work to whittle them down to our size. So when you're around forest areas, crush out your cigarette, hold your match till it's cold, drown your campfire and drown it again. If you have to burn grass or brush or rubbish, ask about the law first, also get your permit from your warden and last, have plenty of help handy. Please remember a permit is required for all open fires whether in an incinerator or on a piece of plowed ground. Your local forest fire warden will help you in your burning problem and he is as close as your telephone. Please call him.

Each year forest fires destroy enough sawtimber to build all the homes in a city of one-half million people.

Each year forest fires eat up enough sawtimber to make ties for 50,000 miles of railroad tracks.

Each year forest fires destroy enough pulp-size trees to provide a 12 months' supply of newsprint for every newspaper in the United States.

REMEMBER ONLY YOU CAN PREVENT FOREST FIRES

Number of fires, 1; number of acres burned, ½ acre; number of permits issued, 12.
